Declaration of Compliance

This product is delivered by Stadsing:

Baking paper

The above products, was examined in order to establish whether this paper quality is suitable for use in packages or other products intended for contact with foodstuffs.

As an independent party, we have judged the suitability in respect to composition and purity referring to the following regulations:

- Recommendations BfR XXXVI and XXXVI/2 (Issue 94, December 2017) issued by the health authorities (Empfehlungen des Bundesinstitutes für Risikobewertung), Germany

FDA,CFR(Code of Federal Regulations)21-Food and drugs, USA (April 2016),§ 176.170 "Components of paper and paperboard in contact with aqueous and fatty foods" and § 176.180 "Components of paper and paperboard in contact with dry food".

Conditions of use: C. High temperature heat sterilized (e.g. over 212°F).

Type of foods: VII. Bakery products other than those included under types VIII or IX:

A.Moist bakery products with surface containing free fat or oil,

A.Moist bakery products with surface containing no free fat or oil.

- Regulation (EC) 1935/2004 on materials and articles to come into contact with food (with regard to raw materials and additives)
- French Decree no 2007-766 with supplement of decree No 2008-1469
- Directive 94/62/EC on Packaging and packaging waste
- REACH: There are no substances used in the formulation of the product.

Based on the analytical results from testing the paper grade mentioned above, and specifications, supplied by our supplier, this paper grade is judged to meet the requirements of the regulations referred to above for direct contact with dry, moist and fatty foodstuffs. The

specifications cover the raw materials, the production aids and the special paper refining agents used in the production process.

The paper grade also meets the *analytical requirements* included in Bfr XXXVI/1.

This means that this paper grade may safely be used in packages or other products intended for direct contact with dry, moist and fatty foodstuffs, as well as for baking purposes in conventional ovens up to a temperature of 220°C and storage at, or below temperature down to -/-20° C.

The product has been manufactured under G.M.P Regulation (EC) N°2023/2006.

We have implemented a traceability system as requested from Art. 17 Regulation (EC) N°1935/2004 via the number on the box/number on core in conjunction with the date of production.
