

LIMITED LIFE GAS TIGHT TRAINING SUIT

RESPIREX™

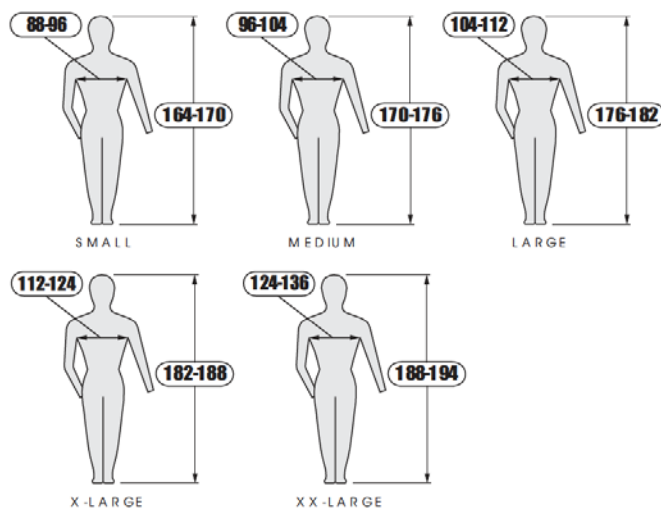

A training version of the fully encapsulating Type 1A - ET limited life gas tight suit. Manufactured in green PVC and clearly marked training suit to avoid confusion in an emergency.

- Reproduces the features of the operational suit
- Designed for multiple re-use with no testing required
- Fully encapsulating design to allow breathing apparatus to be worn inside the suit
- Heavy duty 122cm (48") long gas tight zip, fitted to the right hand side of the suit - flap with a Velcro closure fitted to cover the teeth of the zip
- Adjustable internal support belt and bat-wing sleeves for optimal wearer comfort
- Flexible, multi-laminated, anti-mist visor giving clear undistorted vision
- Dual glove system consisting of a chemically protective laminated inner glove bonded to an outer neoprene glove for mechanical protection.
- Gloves fitted by means of Respirex locking cuff
- Integral socks with outer splash guards or Hazmax™ safety boots
- Exhalation valves ensure that the pressure change within the suit does not exceed 400 pascals in one minute

Accessories

- Air pass-through
- Attachments for lifeline, torch, anchor point, Diktron and Firefly DSU's
- Hazmax™ boots
