Enterprise Safety Sandal

Art nr: 1000969

Monitor Graphic is our new series of featherweight safety shoes for warehouses, industry and light construction. Enterprise is an extremely light safety sandal that weighs 520 grams. It has an aluminium toecap and Pantzar APT penetration protection. The upper is made of Ripstop textile and has robust TPU nose and heel protection. The lacing features Boa's classic L6 system. Despite its low weight and supple look, this sandal has a wide fit. The outsole is made of rubber with an EVA midsole. The insole is Monitor's Pro Support sole, which is made entirely of recycled material from PET bottles.
